Portfolio: <https://2003nitro.github.io/AdamWilkinsPortfolio/#/home>

EDUCATION

Southern New Hampshire University	Manchester, NH
Bachelor of Science, Computer Science Robotics Minor GPA: 3.72	Graduated May 2026

TECHNICAL SKILLS / RELATED COURSES

Languages: Python, C#, C++, C, Java, TypeScript, JavaScript, MySQL
Web and Mobile: HTML, CSS, Node.js
Operating Systems: Microsoft Windows, MacOS, UNIX/Linux
Data Analytics: MySQL, pandas, NumPy, matplotlib, scikit-learn
Frameworks & Tools: Angular, Flask, React Native, Git, GitHub
Hardware & Embedded Systems: Arduino, ESP32, Onshape, Bambu Labs

PROJECT EXPERIENCE

- | | |
|---|--------------------------------|
| Scale Stop Light | September 2025 – December 2025 |
| <ul style="list-style-type: none">Designed and built an Arduino-controlled scale stoplight using custom 3D-printed parts, aluminum extrusion, and relays.Calibrated and tested PixyCam2 vision detection to accurately recognize traffic light colors through brightness and height adjustment.Developed a modular, magnet-mounted traffic light system that simplified assembly, transportation, and future hardware upgrades. | |
| IDEA Lab Tracker | January 2025 – April 2025 |
| <ul style="list-style-type: none">Built an Angular and TypeScript inventory management application as part of a four-person team for SNHU's School of Engineering, Technology, and Aeronautics (SETA).Designed and implemented the front-end interface, developing multiple pages and interactive popups to support inventory management workflows.Gathered client feedback from the IDEA and Electrical Labs to refine the user interface and improve long-term maintainability. | |
| Automated Desktop Assistant Manager (A.D.A.M) | August 2024 – April 2025 |
| <ul style="list-style-type: none">Developed a Python-based voice-controlled desktop assistant as part of a four-person team, implementing voice recognition and Windows system controls including volume adjustment, brightness control, and microphone muting.Additional project features included note taking, Spotify control, customizable presets, date and time retrieval, and OpenAI Whisper for continuous voice conversations. | |

LEADERSHIP EXPERIENCE

- | | |
|--|---------------------------|
| Office of Residence Life – Southern New Hampshire University | Manchester, NH |
| Peer Advisor | August 2025 – April 2026 |
| <ul style="list-style-type: none">Awarded the Legacy Award for making a lasting impact on the department through leadership, mentorship, and dedication as a graduating senior.Partnered with the Resident Director to lead weekly staff meetings, prepare a team of Resident Assistants to confidently respond to resident situations and emergencies, and support staff development throughout the year.Mentored a team of nine Resident Assistants by providing guidance, peer support, and serving as a resource throughout the academic year. | |
| Office of Residence Life – Southern New Hampshire University | Manchester, NH |
| Resident Assistant | August 2024 – August 2025 |
| <ul style="list-style-type: none">Supported a residential community of approximately 70 residents by building relationships, fostering an inclusive environment, and collaborating with Resident Assistants.Responded to resident concerns, policy violations, and emergency situations while enforcing university policies to maintain a safe and supportive community. | |

HONORS / AWARDS

SETA Cup, Earned 1 st , 3 rd , & 4 th Place Awards, Student coding competition with teams of three	March 2026, 2025, & 2024
